

welcome to my professional profile.

Hi!

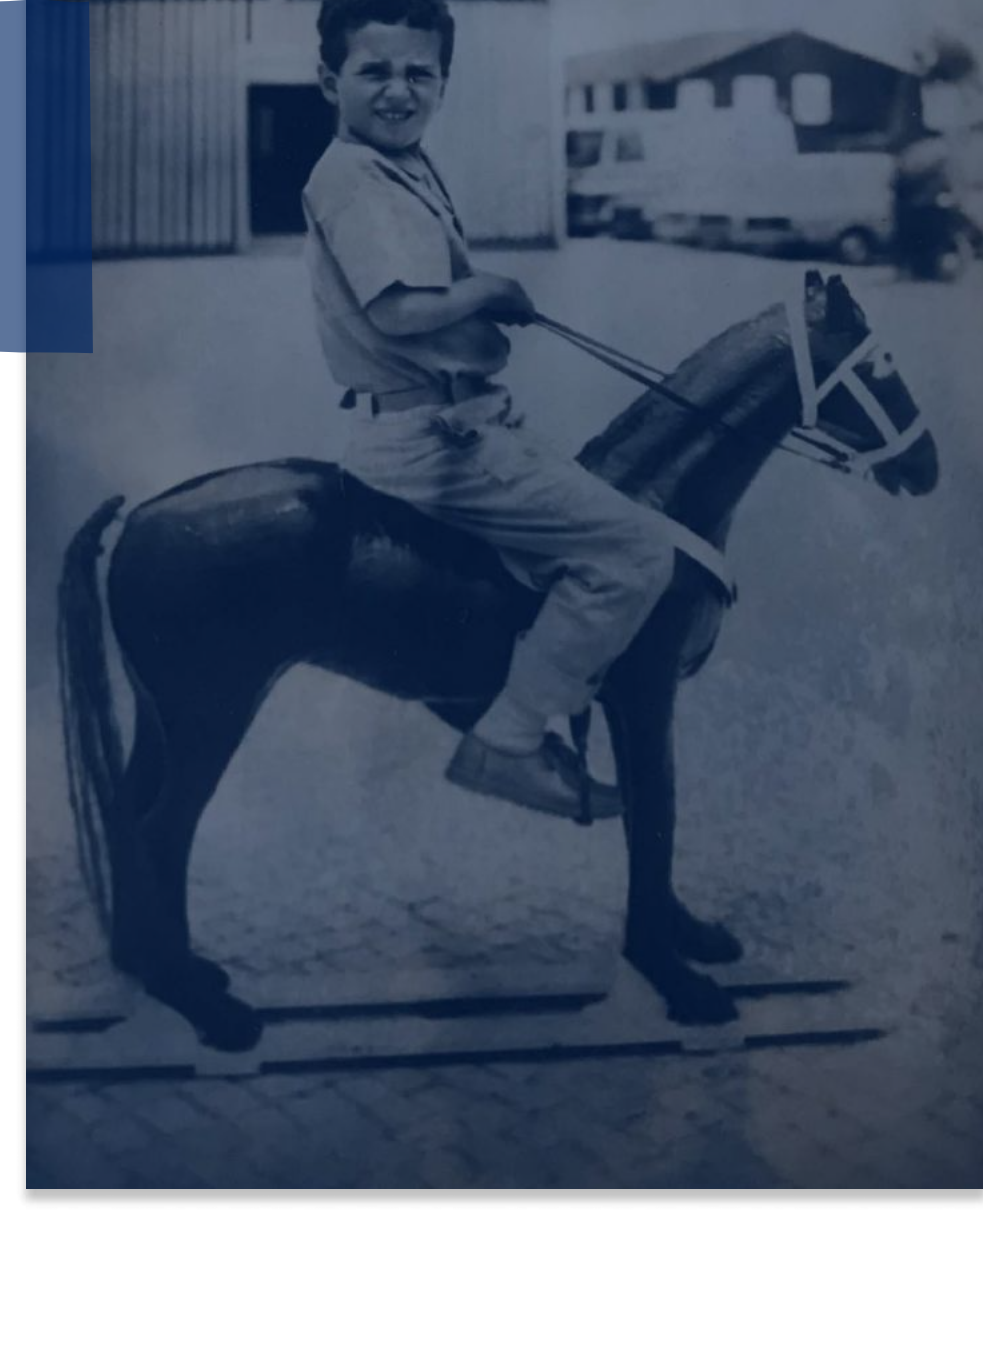

I'm Rui Carvalho, UX - UI Designer and a Product Designer based in Lisbon, Portugal.

I have over 12 years of experience, designing different digital projects and brands for the World.

My main function is to solve digital problems, where I have been absorbing experience and know-how over the years.

- Wireframes
- User Centric Methodologies
- Web & Mobile Design
- User Interface Designer
- Interaction Paradigms
- Prototyping

Bio

Hi! Olá! Hello! Hallo! Bonjour! Guten Tag! Buon Giorno! Hola! 你好!

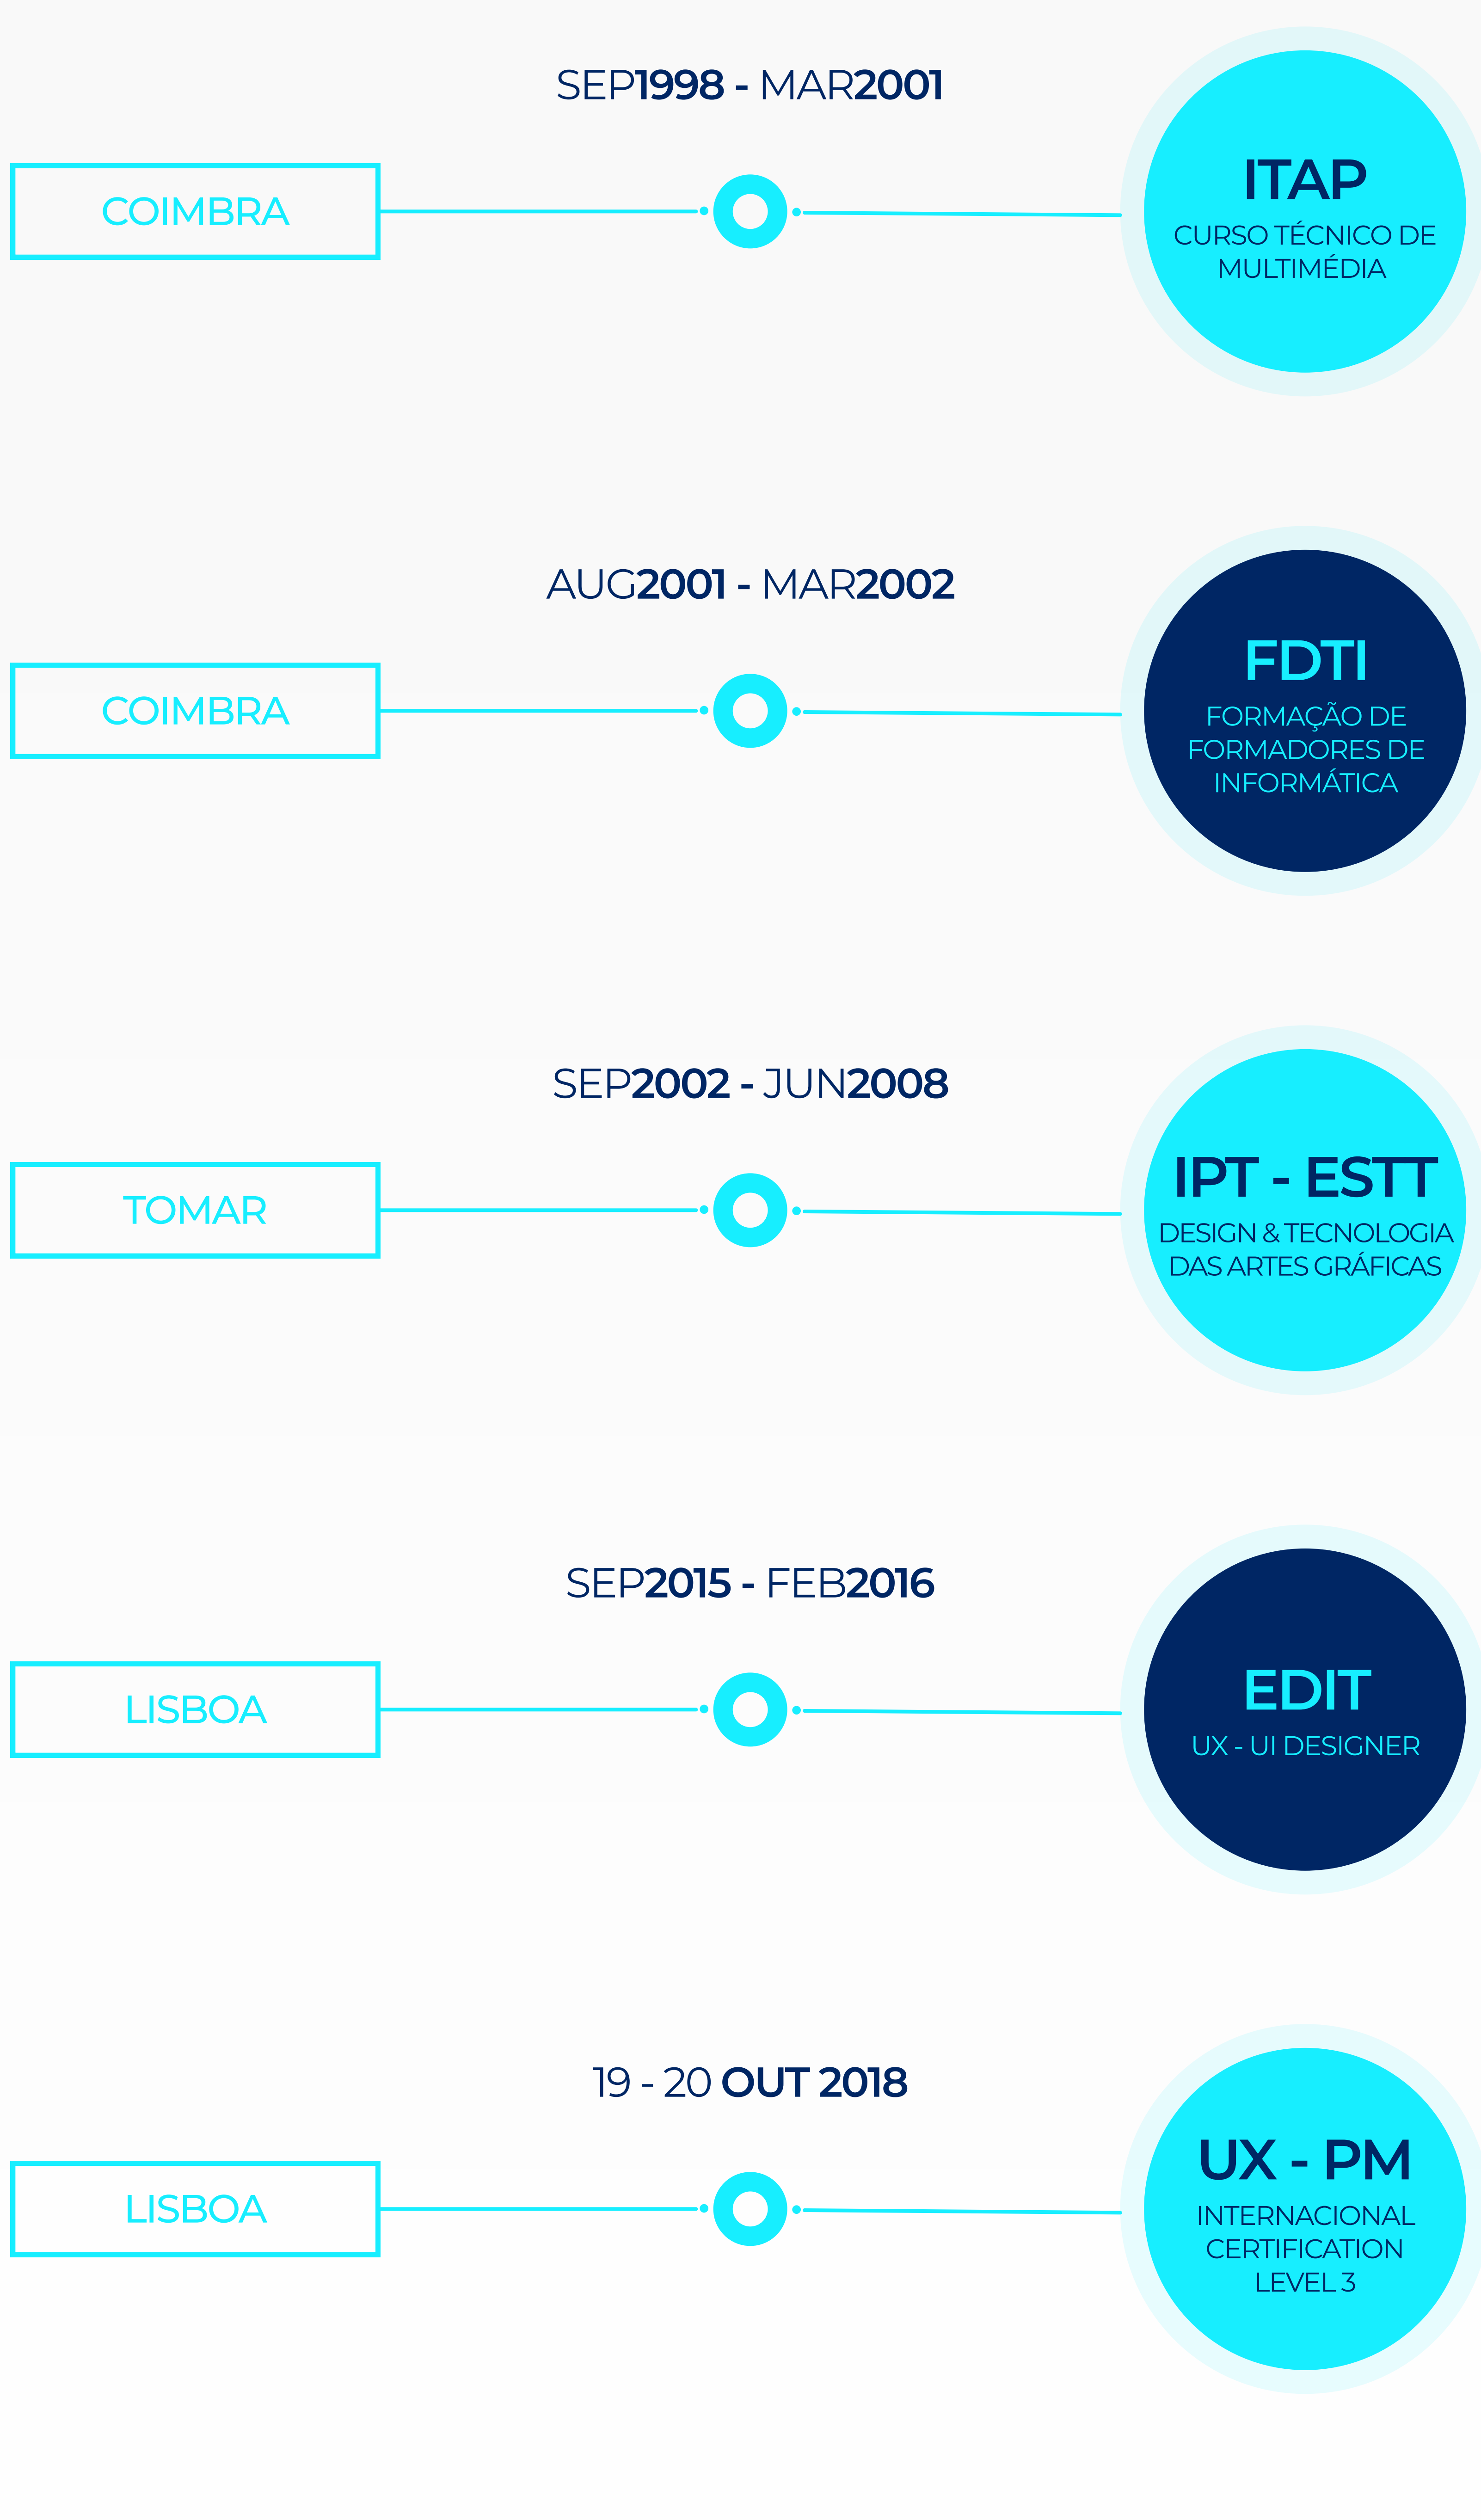

I began quite early to realize that I had a certain slope to the visual and manual arts. I opted to deepen my knowledge in a higher education course - Design and Technology of Graphic Arts.

After some years of experience, I've established a small startup, who was one of the 20 companies selected among thousands of projects that apply every year in Lisbon, called The Chef Lisbon (O CHEF) - innovative platform in the area of communication and dissemination of the culture in the city of Lisbon.

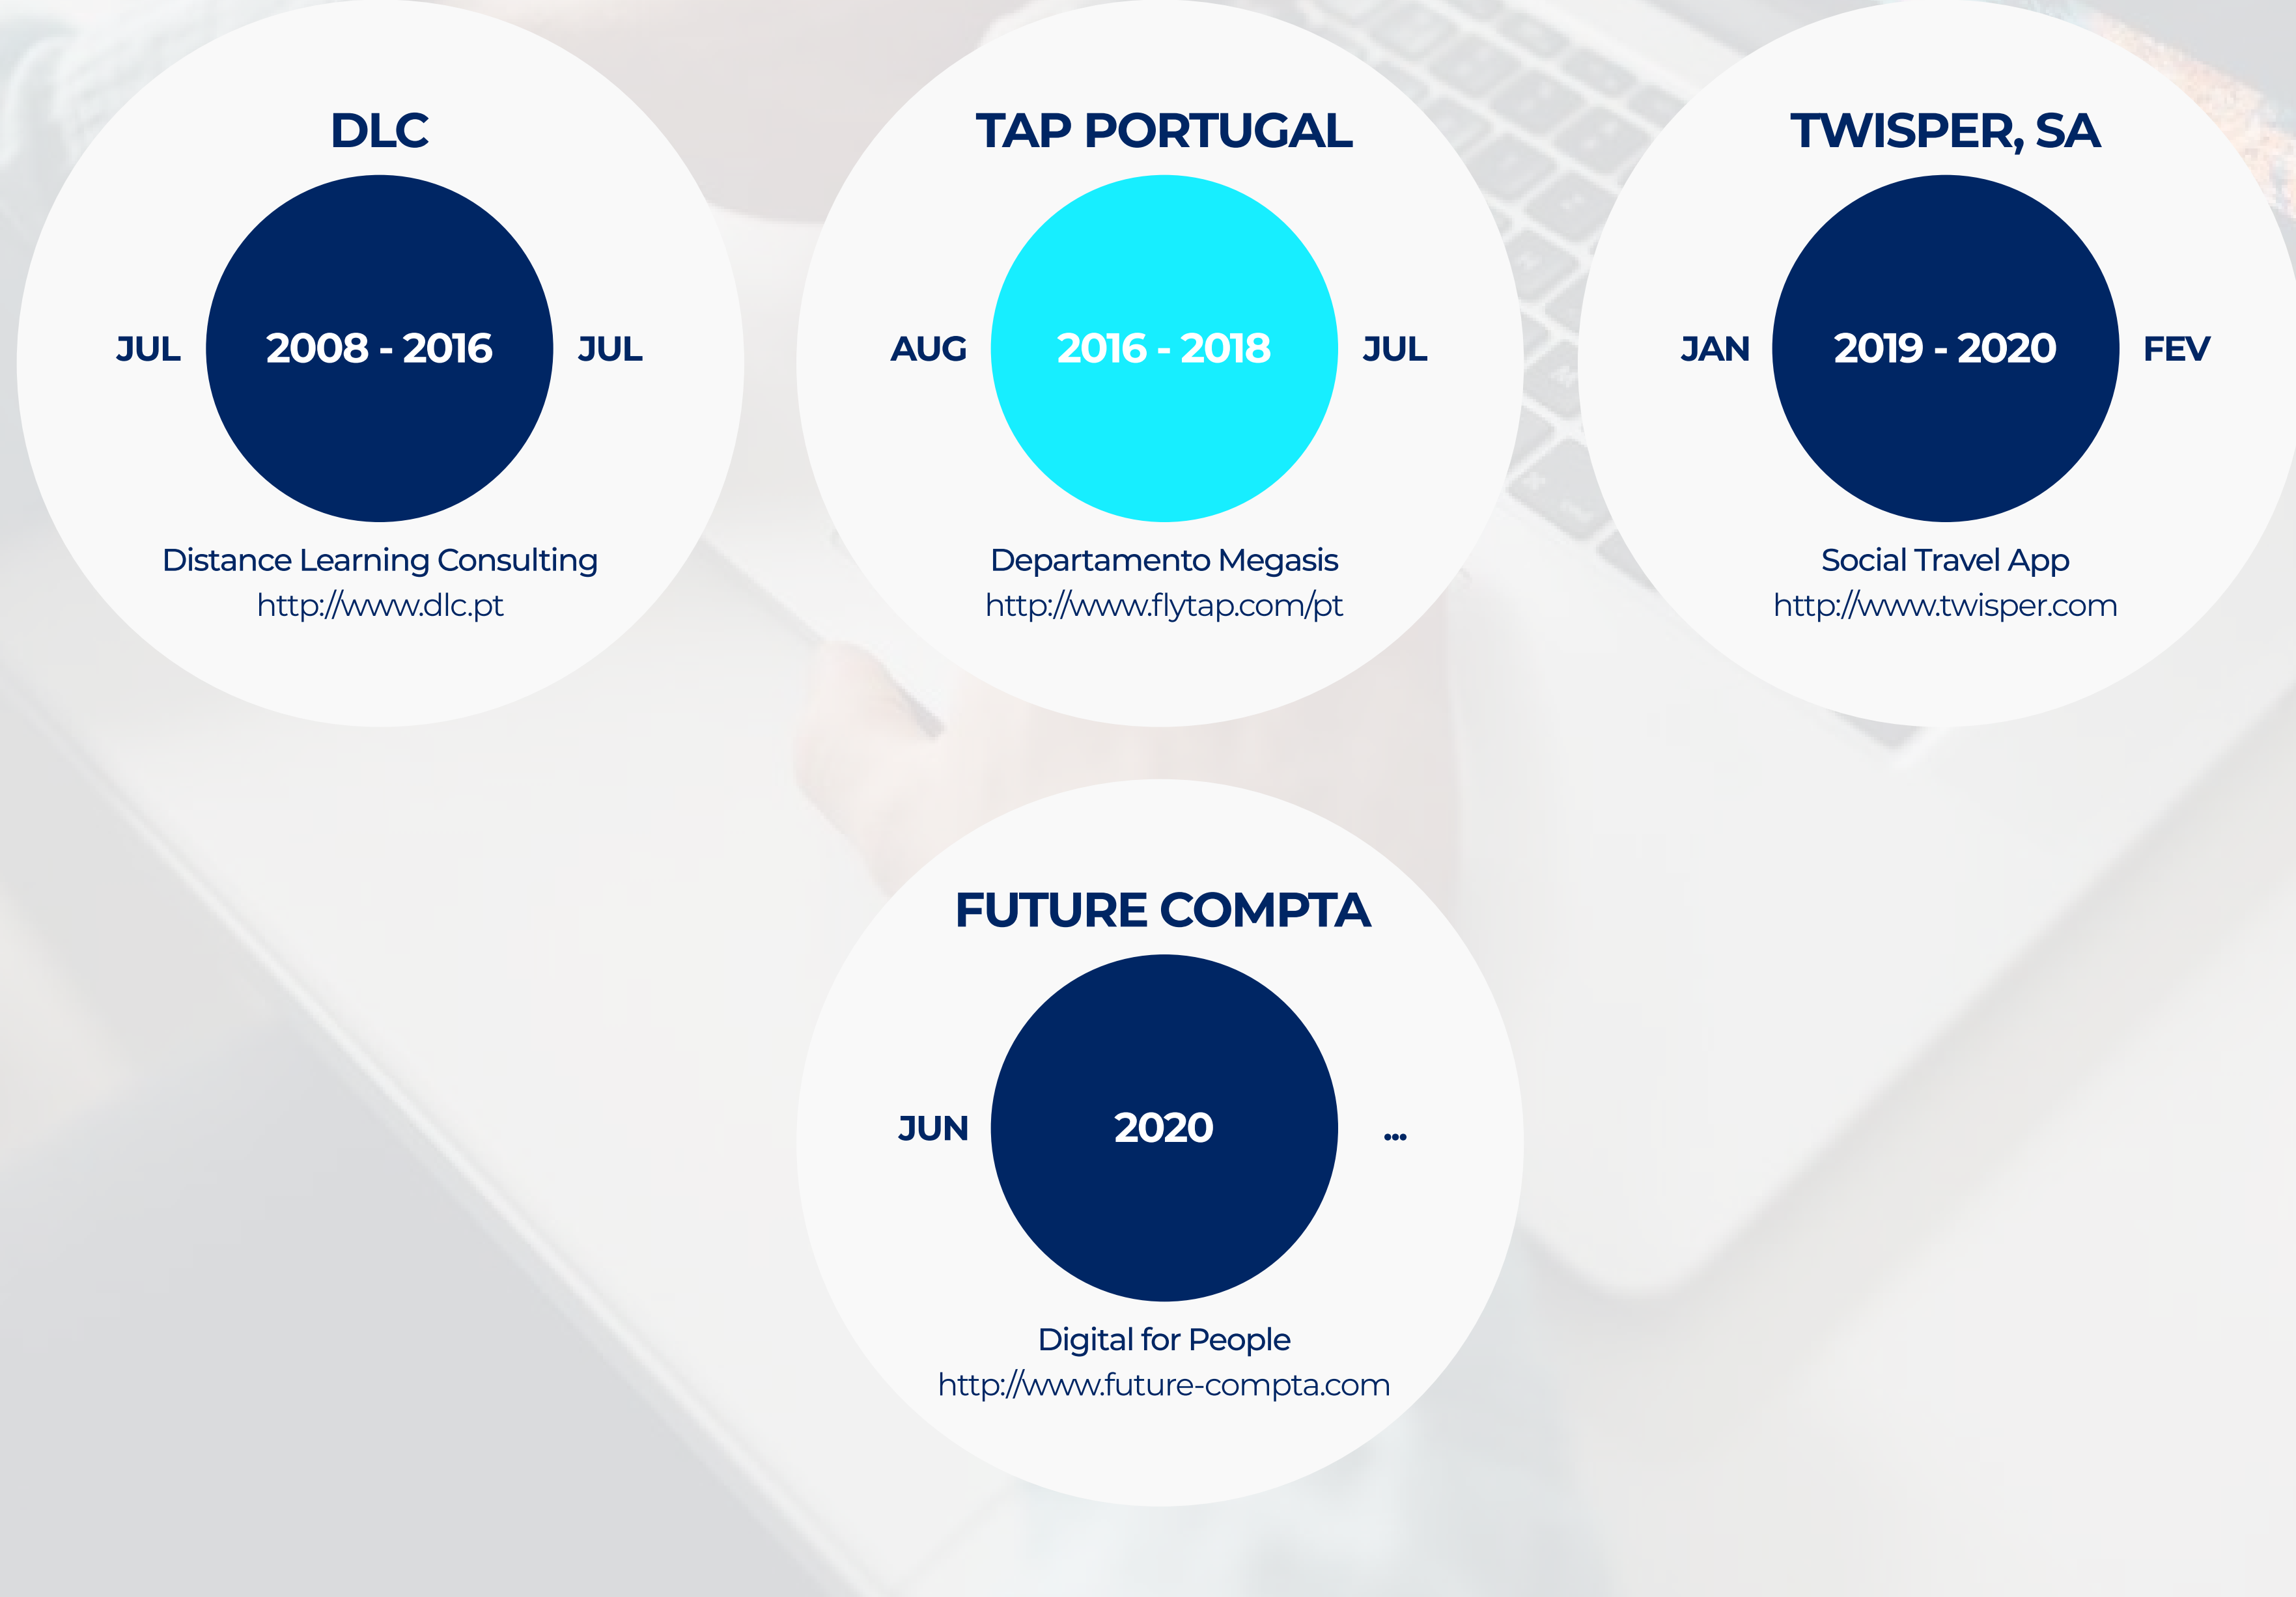

Nowadays I'm specializing on user experience and user interface. I'm drawn to simplicity of things, but at the same time attentive to details and perfection.

Having a vein of entrepreneur and being ambitious, I love giving life to my own products, customizing them and creating their identity.
